Environment Protection Licence

Licence - 1699

Information about this licence

Dictionary

A definition of terms used in the licence can be found in the dictionary at the end of this licence.

Responsibilities of licensee

Separate to the requirements of this licence, general obligations of licensees are set out in the Protection of the Environment Operations Act 1997 ("the Act") and the Regulations made under the Act. These include obligations to:

- ensure persons associated with you comply with this licence, as set out in section 64 of the Act;
- control the pollution of waters and the pollution of air (see for example sections 120 - 132 of the Act);
- report incidents causing or threatening material environmental harm to the environment, as set out in Part 5.7 of the Act.

Variation of licence conditions

The licence holder can apply to vary the conditions of this licence. An application form for this purpose is available from the EPA.

The EPA may also vary the conditions of the licence at any time by written notice without an application being made.

Where a licence has been granted in relation to development which was assessed under the Environmental Planning and Assessment Act 1979 in accordance with the procedures applying to integrated development, the EPA may not impose conditions which are inconsistent with the development consent conditions until the licence is first reviewed under Part 3.6 of the Act.

Duration of licence

This licence will remain in force until the licence is surrendered by the licence holder or until it is suspended or revoked by the EPA or the Minister. A licence may only be surrendered with the written approval of the EPA.

Licence review

The Act requires that the EPA review your licence at least every 5 years after the issue of the licence, as set out in Part 3.6 and Schedule 5 of the Act. You will receive advance notice of the licence review.

Fees and annual return to be sent to the EPA

For each licence fee period you must pay:

- an administrative fee; and
- a load-based fee (if applicable).

Environment Protection Licence

Licence - 1699

The EPA publication “A Guide to Licensing” contains information about how to calculate your licence fees. The licence requires that an Annual Return, comprising a Statement of Compliance and a summary of any monitoring required by the licence (including the recording of complaints), be submitted to the EPA. The Annual Return must be submitted within 60 days after the end of each reporting period. See condition R1 regarding the Annual Return reporting requirements.

Usually the licence fee period is the same as the reporting period.

Transfer of licence

The licence holder can apply to transfer the licence to another person. An application form for this purpose is available from the EPA.

Public register and access to monitoring data

Part 9.5 of the Act requires the EPA to keep a public register of details and decisions of the EPA in relation to, for example:

- licence applications;
- licence conditions and variations;
- statements of compliance;
- load based licensing information; and
- load reduction agreements.

Under s320 of the Act application can be made to the EPA for access to monitoring data which has been submitted to the EPA by licensees.

This licence is issued to:

INGHAMS ENTERPRISES PTY. LIMITED
LOCKED BAG 2039
NORTH RYDE NSW 1670

subject to the conditions which follow.

Environment Protection Licence

Licence - 1699

1 Administrative Conditions

A1 What the licence authorises and regulates

A1.1 This licence authorises the carrying out of the scheduled activities listed below at the premises specified in A2. The activities are listed according to their scheduled activity classification, fee-based activity classification and the scale of the operation.

Unless otherwise further restricted by a condition of this licence, the scale at which the activity is carried out must not exceed the maximum scale specified in this condition.

Scheduled Activity	Fee Based Activity	Scale
Livestock processing activities	Slaughtering or processing animals	0 - 30000 T annual processing capacity

A2 Premises or plant to which this licence applies

A2.1 The licence applies to the following premises:

Premises Details
TAHMOOR PLANT
ROCKFORD ROAD
TAHMOOR
NSW 2573
LOT 23 DP 233658

A2.2 The premises location is shown on the map below.

Environment Protection Licence

Licence - 1699

A3 Information supplied to the EPA

A3.1 Works and activities must be carried out in accordance with the proposal contained in the licence application, except as expressly provided by a condition of this licence.

Environment Protection Licence

Licence - 1699

In this condition the reference to "the licence application" includes a reference to:

- a) the applications for any licences (including former pollution control approvals) which this licence replaces under the Protection of the Environment Operations (Savings and Transitional) Regulation 1998; and
- b) the licence information form provided by the licensee to the EPA to assist the EPA in connection with the issuing of this licence.

2 Limit Conditions

L1 Pollution of waters

- L1.1 Except as may be expressly provided in any other condition of this licence, the licensee must comply with section 120 of the Protection of the Environment Operations Act 1997.

L2 Noise limits

- L2.1 Noise from the premises must not exceed:

- a) an LAeq 15 minute noise emission criterion of 40 dB(A) (7am to 6pm) and
- b) an LAeq 15 minute noise emission criterion of 38 dB(A) during the evening (6pm to 10pm) Monday to Friday; and
- c) at all other times an LAeq 15 minute noise emission criterion of 38 dB(A), except as expressly provided by this licence.

Definition:

LAeq is the equivalent continuous noise level – the level equivalent to the energy-average of noise levels emitted by the premises over the stated measurement period.

- L2.2 The noise emission limits identified in this licence apply under all meteorological conditions except:
- a) during rain and wind speeds (at 10m height) greater than 3m/s; and
 - b) under "non-significant weather conditions".

Note: Field meteorological indicators for non-significant weather conditions are described in the NSW Industrial Noise Policy, Chapter 5 and Appendix E in relation to wind and temperature inversions.

3 Operating Conditions

O1 Activities must be carried out in a competent manner

- O1.1 Licensed activities must be carried out in a competent manner.

This includes:

- a) the processing, handling, movement and storage of materials and substances used to carry out the activity; and
- b) the treatment, storage, processing, reprocessing, transport and disposal of waste generated by the activity.

Environment Protection Licence

Licence - 1699

O2 Maintenance of plant and equipment

- O2.1 All plant and equipment installed at the premises or used in connection with the licensed activity:
- must be maintained in a proper and efficient condition; and
 - must be operated in a proper and efficient manner.

O3 Dust

- O3.1 All operations and activities occurring at the premises must be carried out in a manner that will minimise the emission of dust from the premises.

4 Monitoring and Recording Conditions

M1 Monitoring records

- M1.1 The results of any monitoring required to be conducted by this licence or a load calculation protocol must be recorded and retained as set out in this condition.
- M1.2 All records required to be kept by this licence must be:
- in a legible form, or in a form that can readily be reduced to a legible form;
 - kept for at least 4 years after the monitoring or event to which they relate took place; and
 - produced in a legible form to any authorised officer of the EPA who asks to see them.
- M1.3 The following records must be kept in respect of any samples required to be collected for the purposes of this licence:
- the date(s) on which the sample was taken;
 - the time(s) at which the sample was collected;
 - the point at which the sample was taken; and
 - the name of the person who collected the sample.

M2 Recording of pollution complaints

- M2.1 The licensee must keep a legible record of all complaints made to the licensee or any employee or agent of the licensee in relation to pollution arising from any activity to which this licence applies.
- M2.2 The record must include details of the following:
- the date and time of the complaint;
 - the method by which the complaint was made;
 - any personal details of the complainant which were provided by the complainant or, if no such details were provided, a note to that effect;
 - the nature of the complaint;
 - the action taken by the licensee in relation to the complaint, including any follow-up contact with the complainant; and
 - if no action was taken by the licensee, the reasons why no action was taken.
- M2.3 The record of a complaint must be kept for at least 4 years after the complaint was made.

Environment Protection Licence

Licence - 1699

M2.4 The record must be produced to any authorised officer of the EPA who asks to see them.

M3 Telephone complaints line

M3.1 The licensee must operate during its operating hours a telephone complaints line for the purpose of receiving any complaints from members of the public in relation to activities conducted at the premises or by the vehicle or mobile plant, unless otherwise specified in the licence.

M3.2 The licensee must notify the public of the complaints line telephone number and the fact that it is a complaints line so that the impacted community knows how to make a complaint.

M3.3 The preceding two conditions do not apply until 3 months after the date of the issue of this licence.

5 Reporting Conditions

R1 Annual return documents

R1.1 The licensee must complete and supply to the EPA an Annual Return in the approved form comprising:

1. a Statement of Compliance,
2. a Monitoring and Complaints Summary,
3. a Statement of Compliance - Licence Conditions,
4. a Statement of Compliance - Load based Fee,
5. a Statement of Compliance - Requirement to Prepare Pollution Incident Response Management Plan,
6. a Statement of Compliance - Requirement to Publish Pollution Monitoring Data; and
7. a Statement of Compliance - Environmental Management Systems and Practices.

At the end of each reporting period, the EPA will provide to the licensee notification that the Annual Return is due.

R1.2 An Annual Return must be prepared in respect of each reporting period, except as provided below.

Note: The term "reporting period" is defined in the dictionary at the end of this licence. Do not complete the Annual Return until after the end of the reporting period.

R1.3 Where this licence is transferred from the licensee to a new licensee:

- a) the transferring licensee must prepare an Annual Return for the period commencing on the first day of the reporting period and ending on the date the application for the transfer of the licence to the new licensee is granted; and
- b) the new licensee must prepare an Annual Return for the period commencing on the date the application for the transfer of the licence is granted and ending on the last day of the reporting period.

Note: An application to transfer a licence must be made in the approved form for this purpose.

Environment Protection Licence

Licence - 1699

- R1.4 Where this licence is surrendered by the licensee or revoked by the EPA or Minister, the licensee must prepare an Annual Return in respect of the period commencing on the first day of the reporting period and ending on:
- in relation to the surrender of a licence - the date when notice in writing of approval of the surrender is given; or
 - in relation to the revocation of the licence - the date from which notice revoking the licence operates.
- R1.5 The Annual Return for the reporting period must be supplied to the EPA via eConnect *EPA* or by registered post not later than 60 days after the end of each reporting period or in the case of a transferring licence not later than 60 days after the date the transfer was granted (the 'due date').
- R1.6 The licensee must retain a copy of the Annual Return supplied to the EPA for a period of at least 4 years after the Annual Return was due to be supplied to the EPA.
- R1.7 Within the Annual Return, the Statements of Compliance must be certified and the Monitoring and Complaints Summary must be signed by:
- the licence holder; or
 - by a person approved in writing by the EPA to sign on behalf of the licence holder.

R2 Notification of environmental harm

- R2.1 Notifications must be made by telephoning the Environment Line service on 131 555.
- R2.2 The licensee must provide written details of the notification to the EPA within 7 days of the date on which they became aware of the incident.

Note: The licensee or its employees must notify all relevant authorities of incidents causing or threatening material harm to the environment immediately after the person becomes aware of the incident in accordance with the requirements of Part 5.7 of the Act.

R3 Written report

- R3.1 Where an authorised officer of the EPA suspects on reasonable grounds that:
- where this licence applies to premises, an event has occurred at the premises; or
 - where this licence applies to vehicles or mobile plant, an event has occurred in connection with the carrying out of the activities authorised by this licence,
- and the event has caused, is causing or is likely to cause material harm to the environment (whether the harm occurs on or off premises to which the licence applies), the authorised officer may request a written report of the event.
- R3.2 The licensee must make all reasonable inquiries in relation to the event and supply the report to the EPA within such time as may be specified in the request.
- R3.3 The request may require a report which includes any or all of the following information:
- the cause, time and duration of the event;
 - the type, volume and concentration of every pollutant discharged as a result of the event;
 - the name, address and business hours telephone number of employees or agents of the licensee, or a specified class of them, who witnessed the event;

Environment Protection Licence

Licence - 1699

- d) the name, address and business hours telephone number of every other person (of whom the licensee is aware) who witnessed the event, unless the licensee has been unable to obtain that information after making reasonable effort;
- e) action taken by the licensee in relation to the event, including any follow-up contact with any complainants;
- f) details of any measure taken or proposed to be taken to prevent or mitigate against a recurrence of such an event; and
- g) any other relevant matters.

R3.4 The EPA may make a written request for further details in relation to any of the above matters if it is not satisfied with the report provided by the licensee. The licensee must provide such further details to the EPA within the time specified in the request.

6 General Conditions

G1 Copy of licence kept at the premises or plant

G1.1 A copy of this licence must be kept at the premises to which the licence applies.

G1.2 The licence must be produced to any authorised officer of the EPA who asks to see it.

G1.3 The licence must be available for inspection by any employee or agent of the licensee working at the premises.

G2 Signage

G2.1 Each monitoring and discharge point must be clearly marked by a sign that indicates the EPA point identification number.

G3 Other general conditions

G3.1 Completed Programs

Program	Description	Completed Date
Develop and submit schedule of works to improve qu	develop and submit schedule of works to improve quality of irrigation water.. reduce potential for water pollution	25-February-2004
Stormwater Management Improvement Works	Stormwater Management Improvement Works. ensure stormwater discharges from the site do not pollute waters.	03-June-2004
PRP 3 - Wastewater Treatment Plant Upgrade	PRP 3 - Wastewater Treatment Plant Upgrade - Install and commission the upgraded wastewater treatment plant. Note: Not completed - refer to Special Conditions E1 and E2	30-June-2010

Environment Protection Licence

Licence - 1699

PRP 4 - Sustainable Irrigation	PRP 4 - Sustainable Irrigation - Install and commission the wet weather holding pond at the design capacity detailed in the Concept Civil Works Plan submitted 31 August 2008 Note: Not completed - Refer to Special Conditions E1 and E2.	30-March-2011
PRP 5 - Assessment of native vegetation	PRP 5 - Assessment of native vegetation in irrigation area - suitably qualified consultant to carry out a flora assessment . Provide an assessment of the remnant vegetation currently affected by irrigation areas D1, D2, E1 & E2.	30-October-2007
PRP 6 - Irrigation System Installation	PRP 6 - Irrigation System Installation. Improve the operational efficiency of the effluent distribution system.	31-August-2008
PRP 7 - Sequential Batch Reactor (SBR) Construction	PRP 7 - SBR build and operate. Staged PRP; Stage 1 Build Stage 2 Commission Stage 3 Operate	25-February-2015
PRP 8 - Connection of plant to SWC Sewerage System	PRP - 8 Connection to sewer. Staged PRP; Stage 1 Concept Plan Stage 2 Construct Stage 3 Commission	11-September-2015
Offal Pit Improvement Works	The aim of the works is to reduce the volume of solids (feathers/quills) entering the wastewater system to reduce the risk of blockages and prevent uncontrolled discharges from the system	09-February-2022

G3.2 Completed Special Conditions Table

Special Condition Number	Title	Description	Completed Date
E1	Expansion of Effluent Application Area and Provision of Effluent Management Plan	Install and have commissioned irrigation equipment on paddocks 1, 2 and 3.	1 January 2011
		Submit Irrigation Management Plan to EPA Wollongong Office	25 March 2011
E2	Interim Expansion of Wet Weather Storage Volume	Provide 21 ML of wet weather storage	7 April 2011

7 Pollution Studies and Reduction Programs

U1 Stormwater and Wastewater Management Improvement Program

- U1.1 The Licensee must undertake an investigation of water management infrastructure (including stormwater, sewerage, and trade waste waters) on the premises to ensure site activities and associated discharges are appropriately managed and do not cause pollution of waters.

By no later than **5pm on 28 June 2024**, a Report detailing the investigations must be submitted to the EPA

Environment Protection Licence

Licence - 1699

by electronic mail at info@epa.nsw.gov.au and include, but not be limited to, the following:

1. An updated map of the entire premises which clearly shows:
 - a) the site's stormwater, sewerage, and trade waste water capture, storage, and treatment systems. This should identify the relevant catchments, flow paths, flow directions, location of any treatment facilities, and discharge points.
 - b) Identification of any control points, valves, storage pits (including the type of cover used on each pit), bunds, sumps, pumps, dams, transfer pipelines, and storage tanks and clearly show whether they are used for the management of stormwater, sewerage and/or trade waste water at the premises.
2. Provide details and a description of site operations including all stormwater, sewerage, and wastewater sources, how each source is managed, and any existing measures used to segregate and treat each source.
3. Identification of potential pollutants in each stormwater, sewerage and wastewater catchment areas at the premises. This should include, but not be limited to, the results of Inghams Water Sampling Plan identified in the Incident Report provided to the EPA on 21 March 2024, and a copy of Inghams Trade Waste water quality sample results for the period 1 June 2023 to 1 June 2024.
4. Identification of any proposed recommended actions (including reasonable timeframes) proposed to be implemented at the Premises to improve the management and segregation of stormwater, sewerage and wastewater, and to ensure compliance with the Licence and prevent pollution of waters from activities undertaken at the premises; and
5. Provide details of any identified actions/outcomes/recommendations implemented at the premises. This should include details of the three monthly "Effectiveness review" identified in the Licensee's Incident Report.

U2 Odour Impact Assessment and Odour Management Plan

U2.1 The licensee must engage a suitably qualified and experienced odour specialist to undertake an Odour Impact Assessment (OIA) of all activities on the premises and develop an Odour Management Plan (OMP).

By no later than **5pm on 31 July 2024**, the licensee must submit the OIA and OMP to the EPA by electronic mail at info@epa.nsw.gov.au and include, but not be limited to, the following:

Odour Impact Assessment

1. Identification of all potential odour-generating sources (including fugitive emissions) at the premises;
2. Assessment and prioritisation of each of the identified odour sources and their potential to emit odours from the premises;
3. Identification and assessment of the effectiveness of current odour management controls and procedures implemented at the premises in mitigating potential odour impacts offsite;
4. A detailed feasibility study to consider and evaluate additional practicable odour pollution control options that could be implemented to improve the management of odours generated at the premises. This must include an evaluation of the likely reduction in potential offsite odour impacts associated with each option; and

Environment Protection Licence

Licence - 1699

5. Identification of recommended actions (including reasonable timeframes) proposed to be implemented to improve the management of odours generated at the premises to ensure compliance with s129 of the *Protection of the Environment Operations Act 1997*.

Odour Management Plan

6. The OMP must identify the current odour management controls and procedures implemented at the premises as well as any additional controls that will be implemented based on the recommended actions identified in the OIA.

The OIA and OMP must be undertaken in accordance with the methodologies set out in the following documents:

- a) NSW EPA, 2016, Approved Methods for the Assessment and Modelling of Air Pollutants in NSW;
- b) NSW EPA, November 2006, Technical Framework: Assessment and Management of Odour from Stationary Sources in NSW; and
- c) NSW EPA, November 2006, Technical Notes: Assessment and Management of Odour from Stationary Sources in NSW

Environment Protection Licence

Licence - 1699

Dictionary

General Dictionary

3DGM [in relation to a concentration limit]	Means the three day geometric mean, which is calculated by multiplying the results of the analysis of three samples collected on consecutive days and then taking the cubed root of that amount. Where one or more of the samples is zero or below the detection limit for the analysis, then 1 or the detection limit respectively should be used in place of those samples
Act	Means the Protection of the Environment Operations Act 1997
activity	Means a scheduled or non-scheduled activity within the meaning of the Protection of the Environment Operations Act 1997
actual load	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2009
AM	Together with a number, means an ambient air monitoring method of that number prescribed by the <i>Approved Methods for the Sampling and Analysis of Air Pollutants in New South Wales</i> .
AMG	Australian Map Grid
anniversary date	The anniversary date is the anniversary each year of the date of issue of the licence. In the case of a licence continued in force by the Protection of the Environment Operations Act 1997, the date of issue of the licence is the first anniversary of the date of issue or last renewal of the licence following the commencement of the Act.
annual return	Is defined in R1.1
Approved Methods Publication	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2009
assessable pollutants	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2009
BOD	Means biochemical oxygen demand
CEM	Together with a number, means a continuous emission monitoring method of that number prescribed by the <i>Approved Methods for the Sampling and Analysis of Air Pollutants in New South Wales</i> .
COD	Means chemical oxygen demand
composite sample	Unless otherwise specifically approved in writing by the EPA, a sample consisting of 24 individual samples collected at hourly intervals and each having an equivalent volume.
cond.	Means conductivity
environment	Has the same meaning as in the Protection of the Environment Operations Act 1997
environment protection legislation	Has the same meaning as in the Protection of the Environment Administration Act 1991
EPA	Means Environment Protection Authority of New South Wales.
fee-based activity classification	Means the numbered short descriptions in Schedule 1 of the Protection of the Environment Operations (General) Regulation 2009.
general solid waste (non-putrescible)	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997

Environment Protection Licence

Licence - 1699

flow weighted composite sample	Means a sample whose composites are sized in proportion to the flow at each composites time of collection.
general solid waste (putrescible)	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
grab sample	Means a single sample taken at a point at a single time
hazardous waste	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
licensee	Means the licence holder described at the front of this licence
load calculation protocol	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2009
local authority	Has the same meaning as in the Protection of the Environment Operations Act 1997
material harm	Has the same meaning as in section 147 Protection of the Environment Operations Act 1997
MBAS	Means methylene blue active substances
Minister	Means the Minister administering the Protection of the Environment Operations Act 1997
mobile plant	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
motor vehicle	Has the same meaning as in the Protection of the Environment Operations Act 1997
O&G	Means oil and grease
percentile [in relation to a concentration limit of a sample]	Means that percentage [eg.50%] of the number of samples taken that must meet the concentration limit specified in the licence for that pollutant over a specified period of time. In this licence, the specified period of time is the Reporting Period unless otherwise stated in this licence.
plant	Includes all plant within the meaning of the Protection of the Environment Operations Act 1997 as well as motor vehicles.
pollution of waters [or water pollution]	Has the same meaning as in the Protection of the Environment Operations Act 1997
premises	Means the premises described in condition A2.1
public authority	Has the same meaning as in the Protection of the Environment Operations Act 1997
regional office	Means the relevant EPA office referred to in the Contacting the EPA document accompanying this licence
reporting period	For the purposes of this licence, the reporting period means the period of 12 months after the issue of the licence, and each subsequent period of 12 months. In the case of a licence continued in force by the Protection of the Environment Operations Act 1997, the date of issue of the licence is the first anniversary of the date of issue or last renewal of the licence following the commencement of the Act.
restricted solid waste	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
scheduled activity	Means an activity listed in Schedule 1 of the Protection of the Environment Operations Act 1997
special waste	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
TM	Together with a number, means a test method of that number prescribed by the <i>Approved Methods for the Sampling and Analysis of Air Pollutants in New South Wales</i> .

Environment Protection Licence

Licence - 1699

TSP	Means total suspended particles
TSS	Means total suspended solids
Type 1 substance	Means the elements antimony, arsenic, cadmium, lead or mercury or any compound containing one or more of those elements
Type 2 substance	Means the elements beryllium, chromium, cobalt, manganese, nickel, selenium, tin or vanadium or any compound containing one or more of those elements
utilisation area	Means any area shown as a utilisation area on a map submitted with the application for this licence
waste	Has the same meaning as in the Protection of the Environment Operations Act 1997
waste type	Means liquid, restricted solid waste, general solid waste (putrescible), general solid waste (non-putrescible), special waste or hazardous waste
Wellhead	Has the same meaning as in Schedule 1 to the Protection of the Environment Operations (General) Regulation 2021.

Date of this edition: 30-August-2001

Environment Protection Licence

Licence - 1699

End Notes

- 1 Licence varied by notice 1016487, issued on 06-Jun-2002, which came into effect on 06-Jun-2002.
- 2 Licence varied by correction to EPA Sub Region data record, issued on 17-Sep-2002, which came into effect on 17-Sep-2002.
- 3 Licence varied by notice 1034000, issued on 20-Jan-2004, which came into effect on 14-Feb-2004.
- 4 Licence varied by notice 1037662, issued on 03-Jun-2004, which came into effect on 28-Jun-2004.
- 5 Licence varied by notice 1061081, issued on 07-Jun-2006, which came into effect on 07-Jun-2006.
- 6 Licence fee period changed by notice 1061524 on 08-Jun-2006.
- 7 Licence varied by notice 1074938, issued on 02-Jul-2007, which came into effect on 02-Jul-2007.
- 8 Licence varied by repair to Annual Return Archive, issued on 17-Jul-2007, which came into effect on 17-Jul-2007.
- 9 Licence varied by notice 1088105, issued on 08-Jul-2008, which came into effect on 08-Jul-2008.
- 10 Condition A1.3 Not applicable varied by notice issued on <issue date> which came into effect on <effective date>
- 11 Licence varied by notice 1095323, issued on 02-Dec-2008, which came into effect on 02-Dec-2008.
- 12 Licence varied by notice 1121824, issued on 17-Dec-2010, which came into effect on 17-Dec-2010.
- 13 Licence varied by notice 1124679, issued on 14-Feb-2011, which came into effect on 14-Feb-2011.
- 14 Licence varied by notice 1125062, issued on 22-Feb-2011, which came into effect on 22-Feb-2011.
- 15 Licence varied by notice 1501801 issued on 01-Nov-2011
- 16 Licence varied by notice 1504281 issued on 06-Mar-2012
- 17 Licence varied by notice 1505786 issued on 28-Jun-2012
- 18 Licence varied by notice 1515287 issued on 28-Jun-2013
- 19 Licence varied by notice 1522686 issued on 23-Jun-2014
- 20 Licence varied by notice 1532036 issued on 08-Oct-2015
